Curriculum Vitae of Oliver Kiessler
04/09/2024

Address:
Sterrenhofweg 31
DE-50858 Cologne
Germany
https://oliver-kiessler/en/index.html

My name is Oliver Kießler and I am a freelance fullstack developer from Cologne, Germany. I specialize in web applications (Angular, Ruby on Rails) and API backend solutions (NodeJS, AWS Lambda & Amplify, Serverless Framework, Java).

As an experienced fullstack software developer and IT consultant, I independently take on projects/assignments on a freelance basis or support your company as part of your team.

Projects:

Pares - Integrated finance

PARES Strategiepartner GmbH, Cologne/Germany

Consulting, coaching und participation in software development und system architecture of the backend and frontend application

Scope of work:
Fullstack software development, system architecture

Technologies used:
Java 19, Spark, Hibernate, Typescript, Angular 14, AWS Amplify & EC2, mySQL

PROFI MIS Ionic App Migration/Update

Netempire Software GmbH, Rösrath/Germany
BBM Beratung Beteiligung Management GmbH, Bonn/Germany

Update to Ionic 5 (iOS UIWebview Deprecation)

Scope of work:
Software development

Technologies used:

JavaScript, Typescript, Ionic 3, Ionic 5, Capacitor, Node 14, iOS

teVidi Next - App und API Backend

teVidi GmbH, Bochum/Germany

Development of a cloud-based solution for the management of the teVidi router, integration of IP cameras, delivery of camera images and location data and the corresponding hybrid app.

Scope of work:
FullStack software development, System architecture

Technologies used:
JavaScript, React Native, Redux, iOS, Android, NodeJS, AWS Lambda, Serverless Framework, S3, DynamoDB

iSure - App und API Backend

HB Solutions Enterprises AG, Ruggell, Liechtenstein
iSure AG, Schindellegi, Switzerland

Participation in internal software development of webfrontend, iOS app and API backend in the insurance business.

Scope of work:
FullStack software development, System architecture

Technologies used:
Angular 15, Typescript, NodeJS 18, NestJS, AWS Lambda, AWS Amplify, GraphQL, Serverless Framework, S3, DynamoDB, mySQL, MongoDB Atlas, iOS Swift 5, SwiftUI, FileMaker plugin development (C++)

Arena Mietmöbel Webapplication

Arena Mietmöbel GmbH, Frechen/Germany

Development and enhancements for the existing webapp.

https://arena-mietmoebel.de

Scope of work:
Software Development

Technologies used:
Ruby 2.1, Ruby on Rails 4.1, mySQL 5.5

poesi Ionic 3 App

Lukas Hermann, Essen/Germany

Development and enhancements for the existing app:

Poesi is a digital collection of poems.

https://poesiapp.org

Scope of work:
Software Development

Technologies used:
Ionic 3.9, Typescript, Node 10, AngularJS Admin, REST, JSON, iOS, Android

Mobile API & Backend Project

DOMENICEAU, Aachen/Germany

Participation in the software development of an app project in the fashion industry.

Development of a mobile API & a backend admin webinterface.

Scope of work:
Software Development

Technologies used:
Angular 7, Typescript, Javascript, Serverless (AWS Lambda / Node 8), AWS S3, AWS DynamoDB, REST, JSON

myBusiness.AI

Mobile2b GmbH, Cologne/Germany

Participation in the software development of the Angular web frontend.

Scope of work:
Software Development

Technologies used:
Angular 5, Typescript, Javascript, Node 8, REST, JSON

RadioMonster.FM

Streampanel, Hannover/Germany

Internetradio app with background audio streaming.

Scope of work:
Software Development

Technologies used:
React Native, Javascript, iOS, Android

EnigmaX

Netempire Software GmbH, Cologne/Germany

Web- and desktop app for company wide password management (using hybrid encryption).

Scope of work:
Consulting, Software Development

Technologies used:
Angular 5.2, Typescript, PGP, Electron (MacOS, Windows, Linux), REST, JSON, Ruby 2.5, Ruby on Rails 5.2, MongoDB 3.6

Studitemps Mobile App

Studitemps GmbH, Cologne/Germany

Consulting and participation in the development of a hybrid mobile app (until 2018).

Scope of work:

Consulting, Software Development

Technologies used:
Ionic 3.9, Typescript, Jasmine, Karma, REST, JSON, Node 6, iOS, Android

Secure Mobile Payment Plattform (Smpp)

rheinlandmobil GmbH, a company of Sparkassen-Finanzgruppe, Cologne, Germany

Platform for secure payment transactions and processes.

Development of native apps (iOS/Android), mobile SDK's and an API Backend (Ruby).

Scope of work:
Consulting, Software Development

Technologies used:
iOS 10 (Swift 3), Android 7 (Java), Encryption, Ruby 2.2 / JRuby, Ruby on Rails 4.2, MySQL 5.7

SKOPOS CONNECT Backend

SKOPOS CONNECT connects companies directly with their customers by utilizing insight communities.

Participation in the development of a backend API for community participant management and an Angular based HTML5 frontend

Scope of work:
Consulting, Software Development, System Architecture

Technologies used:
NodeJS, ExpressJS, mySQL 5.5, Sequelize, Javascript, HTML5, AngularJS 1.4, Grunt, Mocha/Karma, PhantomJS

I love MyMedia iOS & Android App (Relaunch)

IP Deutschland GmbH / GapFish GmbH / Smartclick Solutions, Cologne, Germany

http://itunes.apple.com/de/app/id508003010?mt=8

https://play.google.com/store/apps/details?
id=de.ipdeutschland.ilovemymedia&hl=de

Scope of work:
Consulting, Software Development

Technologies used:
iOS Universal App: iOS 8, Swift 1.2, XCode 6.3, CocoaPods, JSON API, OAuth 2,
CircleCI
Android: Android 5.0, Java 7, Android Studio, JSON API, OAuth 2, CircleCI

mingle Android App

respondi AG / Smartclick Solutions, Cologne, Germany

By using the mingle app you may participate in topics of decision-making, the
economy, science and current affairs.

https://play.google.com/store/apps/details?id=de.respondi.app
